4-4 旋轉

☸ 變形工具 → 任意旋轉

The screenshot shows the PhotoImpact software interface with a stopwatch image being rotated. Three green boxes with numbers 1, 2, and 3 highlight key steps:

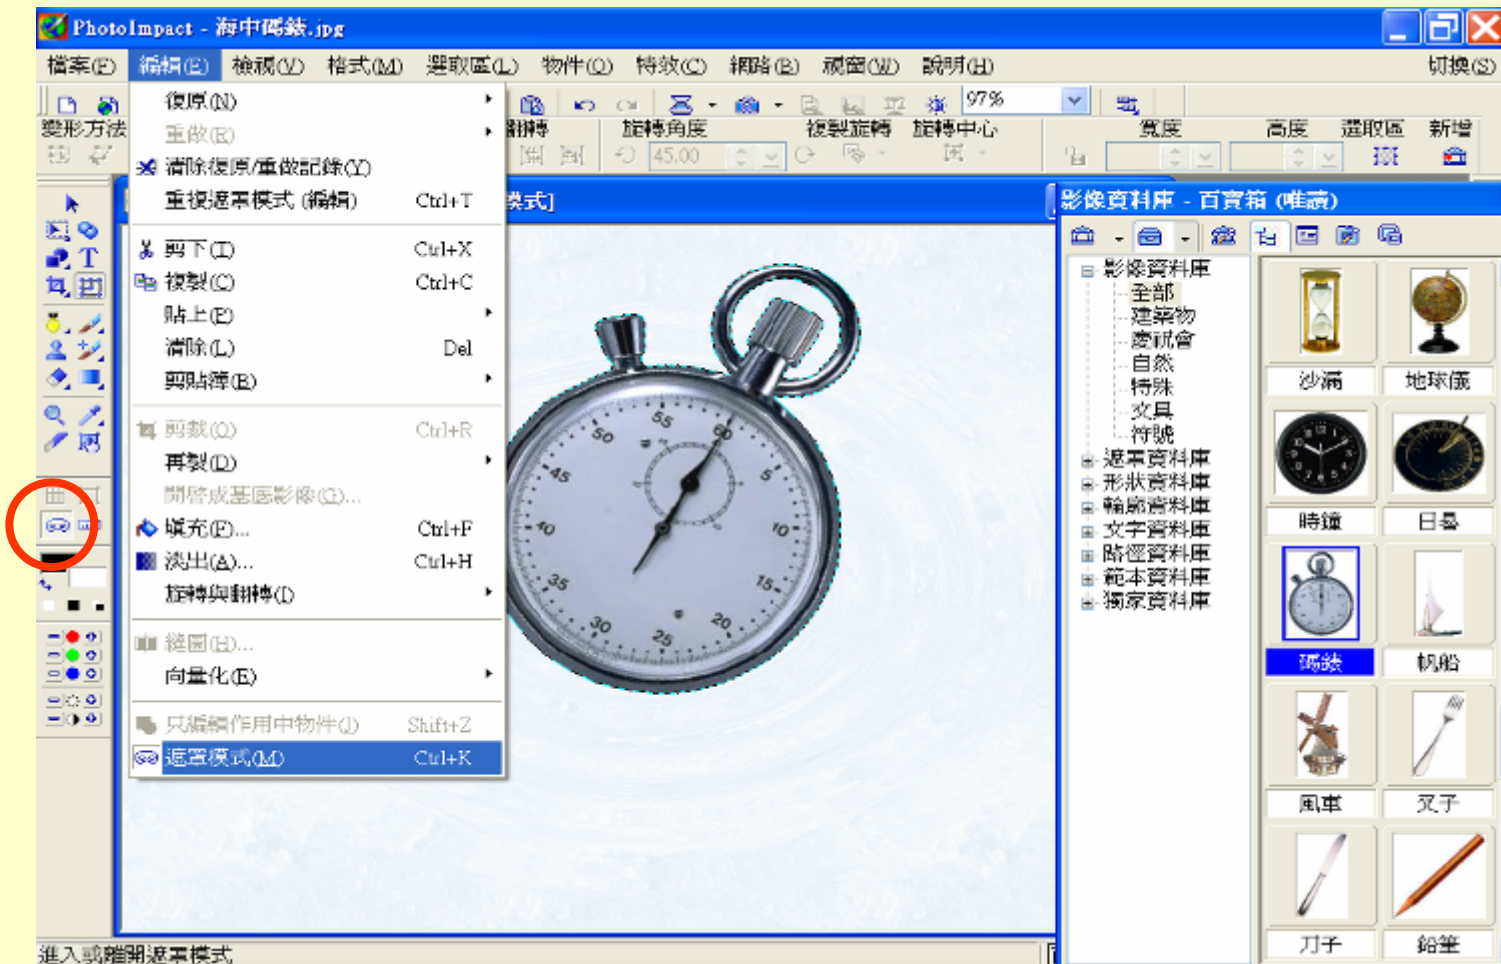

- 1**: Points to the '任意旋轉' (Free Rotate) icon in the left toolbar.
- 2**: Points to the '旋轉方法' (Rotation Method) dropdown menu in the top toolbar, which is set to '任意旋轉'.
- 3**: Points to the rotation handle (a small square) on the stopwatch image, which is being moved to rotate the object.

The top toolbar shows the rotation angle is set to 45.00 degrees. The right sidebar shows a library of images, with '時錶' (Stopwatch) selected.
